Acknowledgement

GREEN GOOD DEEDS, a bilingual working document in English and Hindi has been made possible by the contributions of many organisations and individuals. Conscious of the long list and the fact that in such an exercise we may miss some names, we express our gratitude to all who are directly and indirectly associated with this publication.

The guidance of the Honourable Minister has played a vital role in ideating this book.

The document has been compiled and collated by Dr Hardik Shah in the office of Minister with inputs from Environment Education Division, under the overall guidance of Dr Amita Prasad, Additional Secretary, MoEF&CC. Inputs were also provided by Dr Sujata Arora, Mr Jigmet Takpa, Mr P. J. Michael, Dr Amit Love, Mr Ajay Raghava, Mr Lokesh Chandra Dube, Ms AbhaTewary, Dr Himangana Gupta,

GoodGreenDeeds Programme Objectives

- The main purpose is to change people's attitudes and behaviour towards waste and its management, as well as to begin taking charge and responsibility of keeping their neighbourhood clean
- The Good Green Deeds Programme will encourage individuals and organisations to come together to conduct clean-up centred activities across South Africa and rehabilitate the illegal dumping areas
- Municipalities together with their communities should participate in the clean-up programmes to ensure that their localities are free of illegal dumps.

WASTE KHORO 2019: Asbestos and Land Remediation Summit

"Good Green Deeds towards a Recycling Economy and Sustainable Land Remediation"

GoodGreenDeeds Programme Objectives

- The DEA has realized that more efforts are needed if the environment is to be protected from pollution and has decided on a national Good Green Deeds Programme (GGD) to mobilise every citizen.
- This is a nationwide environmental programme that proposes a simple but bold blueprint for what we all can do as individuals, organisations, faith based organisations, communities and as a nation to bring about the realisation of a cleaner and more environmentally presentable country.
- The aim of the GGD is to promote environmental actions that take into consideration sustainable living practices as well as keeping public spaces clean and tidy

AWARENESS RAISING

TRY TO REDUCE THE WASTE YOUR HOUSE OR SCHOOL GENERATES

Simple changes you can make to reduce waste in your home

- Buy in bulk, purchase refills and concentrates.
- Avoid buying products with excessive packaging.
- Buy products made from recycled materials.
- Avoid disposable products like paper cups and plastics.
- Re-use waste by using cans and glass jars to store pens and pencils.
- Keep used paper to make paper mache.
- Repair broken items rather than throwing them away.
- Start composting.

fruit will be served

**We call upon
you to join
together to
help clean the
environment**

Destination Green Recycling Faith Diketane 078 222 5270
Jekina Phiri 078 728 7274

**Running and walking for a reason:
to clean up the trash along the Bronberrick stream
- a fountain source of the Hennops River.**

fresh will be teaming up with the park-run initiative to encourage attendees to participate in plogging - the action of cleaning up while jogging or planking, picking up litter while walking - to restore health to our bodies while saving our nature. Instead of competing against the clock, the course is not so much about 'fast' is collected along the way. Adding a variety of body movements and swimming these muscles used for landing, splitting and stretching - burning as many more calories.

Rubbish is picked up to prevent it from washing down-stream, plastic being left more plastic,

which contaminates our drinking water and harms our bodies. Plugging our rivers and freshwater soil systems which are already severely polluted with plastic and sewage.

On the day there will be free training, environmental education, free SACs evaluation of freshwater life, as well as recycling. Refreshments, gloves and heating water will be provided, bring your own water bottle for a refill.

Please join us for a healthy morning along this beautiful spring water source, a perennial tributary of the Hennops River.
