P&G

The P&G logo is centered within a dark blue circular shape that overlaps two larger, rounded rectangular shapes. The shape on the left is a dark blue gradient, and the shape on the right is a lighter blue gradient. The logo itself is white and features the letters 'P' and 'G' in a bold, serif font, with an ampersand between them.

P&G

Overview and Vision

A Company of Leading Brands

Our portfolio is organized around 10 product categories and about 65 brands.

Citizenship at P&G

We believe in, and have publicly committed to, doing what's right and being a good corporate citizen. We focus our efforts across five areas:

**ETHICS &
CORPORATE
RESPONSIBILITY**

**COMMUNITY
IMPACT**

**DIVERSITY &
INCLUSION**

**GENDER
EQUALITY**

**ENVIRONMENTAL
SUSTAINABILITY**

Our Philosophy

People around the world count on P&G to make clothes cleaner, hair stronger, teeth whiter and babies drier. But in today's world, superior performing products are no longer enough. Consumers expect the brands they trust to also help solve some of the most complex challenges facing our world.

That's why as consumption rates outpace our natural resources, P&G will continue to delight consumers while also enabling responsible consumption through our brands.

Our global reach, our understanding of the five billion consumers we serve, and our innovation capabilities give us a unique ability to make a positive difference.

Ambition 2030

Ambition 2030

P&G's Ambition 2030 environmental sustainability goals aim to enable and inspire positive impact on the environment and society while creating value for the Company and consumers.

WE WILL DO THIS THROUGH OUR POSITIVE IMPACT FRAMEWORK:

Use the power of innovation and our brands to delight consumers and drive positive impact.

Reduce our footprint and strive for circular solutions.

Create transformative partnerships that enable people, the planet and our business to thrive.

Engage and equip P&G employees to build sustainability thinking and practices into their work and their communities.

We Reduce Our Footprint And Strive For Circular Solutions: Manufacturing Waste

Global ambition –
Zero Manufacturing Waste to Landfill by 2020

South Africa – Kempton Park site
Always / Pampers Manufacturing
Already there!

7 Acts
for
Good

Caring for babies also means
Caring for the planet they will grow up in

7 Acts for Good

act 1

act 2

act 3

act 4

act 5

act 6

act 7

Pampers

act 1

Continue to provide 100% safe products, and transparency

act 2

Guarantee sustainable sourcing, making and transportation

0 manufacturing waste to landfill across all our plants by 2020, 100% renewable electricity by 2030

South Africa already there with ZMWTL

7 Acts
for
Good

act 3

Use more sustainable materials in our diapers & wipes

Progress towards 50% sustainable materials in products by 2030

7 Acts
for
Good

act 4

Develop more sustainable packaging for less waste

100% recyclable, 50% recycled or renewable packaging materials by 2025

LDPE

7 Acts
for
Good

act 5

Innovate for more sustainable diapering solutions

Progress towards 30% less diapering materials per baby over diapering life

7 Acts
for
Good

The best solution for waste - reduce:
30KG less/ baby in the last 3 years

act 6

Lead recycling of all diapers and wipes – and not just Pampers®

Launch in 3 cities by 2021

Feasibility study being done in South Africa

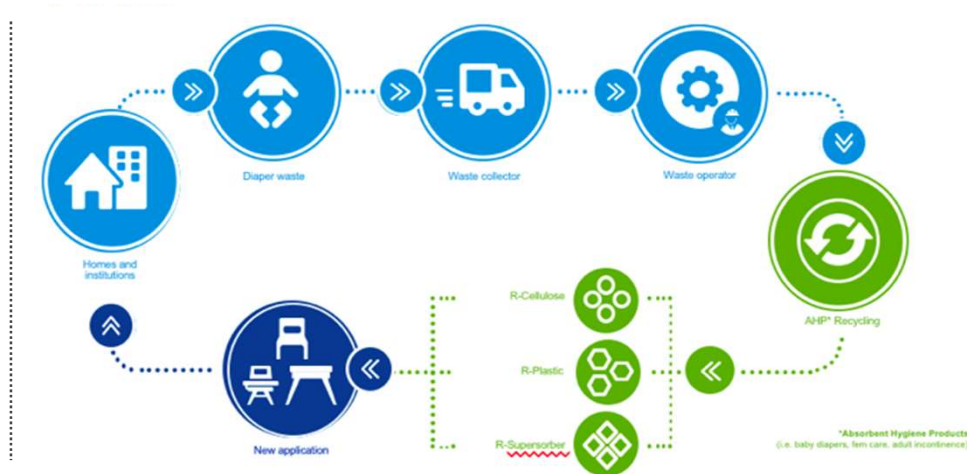

7 Acts
for
Good

Advance recycling solutions for absorbent hygiene products

- In order to create a circular economy, we needed to figure out a way to recycle the most challenging of items – dirty diapers.
- We invented a technology that can recycle a used diapers and other AHPs.
- We have a facility operational in Italy and will expanding it to 10 markets by 2030.

Closed Loop

act 7

Give millions of babies the opportunity of happy healthy development

Help UNICEF eliminate MNT in all countries where it is still a risk

Make premature diapers available for all of the million micro-premature babies born every year

Help creches be more sustainable so they can provide better ECD

MNT Elimination in 45 countries

Donating diapers for premature babies

Helping creches to be more sustainable

7 Acts for Good

Communicating safe disposal

- We always provide clear guidance on the safe and hygienic disposal of our products
- Current recommended waste treatment in South Africa: modern landfill

DO YOU KNOW HOW TO DISPOSE USED NAPPIES?

THROW IN THE BIN

DO NOT FLUSH
DO NOT DUMP
DO NOT DUMP IN DITCHES OR STREAMS
DO NOT BURY

Pampers.

Questions – AHP Waste in South Africa

- How can we advance local disposal / waste treatment solutions, especially for sanitary pads?
- How can we advance community based solutions to minimize littering and dumping?

Thank You
